Hi Sirish

Sorry for a very delayed replay. I was busy organizing an FR event for Asha SV.

Lets see..

- What is the amount SV is considering for 06-07 period. Are you recommending the total amount of ~\$4900 suggested by Noon.ch site visit.

For 06-07 We are considering the full amount. In two installments. It has been voted and approved. First installment with some pending amounts will be released in couple of weeks.

- Perhaps its not necessary that the excellent questions asked by SV

[Zitattext verstecken]

volunteers for expanded effort at Varun and to help increase their efficiency and teacher retention need not delay the funds disbursement that affect the teacher and project morale.

- Is it possible to arrange for a conference call with Andi and others at Noon.ch in another few weeks. Would love to understand their work better and highlight their and SV's excellent stewardship of the project.

I am interested in this. Lets plan. Andi, Do you have time for a phone-conference next week ?

[Zitattext verstecken]

- Is it possible for us to further engage Dr. Mishra (not clear of his role in Varun) in Asha to benefit from his reputation and stature as recognized by other groups. I would like to talk to him if possible. Are we about to loose him to a job in Durban, South Africa. Can an Asha fellowship or some other form of encouragement to stay in Chandauli be considered or even appropriate?

I would interested to know what Andi and Vallabh-bhai feel about this.

From my personal view, I wish to see an increased Asha participation in Naugarh and Chandauli. This might motivate an expansion in project. VARUN is still working low-scale, which can be expanded by increased participation.

I am in favor of having Dr. Mishra as an Asha Fellow. This might enhance further the operations of VARUN.

Regards

Sathya Krishnamurthy
