

## **VARUN status report February 2006- answers to noon questions**

1) Bee keeping: "At initial level we are starting to run the programme in above four villages with 5 units. Money has been arranged and everything is ready to hit the bull. It is expected to invest approximately Rs.15000/-. It is a pilot project, further extension of the programme will be depending upon the success of the pilot project."

=>

- What is the status?

**VARUN : The status is exciting in our opinion because people are seriously interested and involved. From first week of December we started and within 4 months period they are obtaining honey @ 8-10 Kg. per unit (harvesting period). In coming days when the Mahuwa blooming on the peak (approximately 20-25 days from now) may start getting 15-20 Kg. per unit, simultaneously the number of bees will increase quantitatively and qualitatively.**

**Since it is a pilot project and is at the infantile stage but the results are awaited and the that should be hopeful as of indication till now.**

- When has the pilot project started? How many villages and how many units per village?

**VARUN- The pilot project was started in the month of December 2005. At initial level we have started from 5 units in following villages : Lerha, Semarsadhapur, Batauwa, Nonwat (with one unit in each village). Presently it is spread in five more villages i.e. Parsia (3 units), Danogarh (1 units), Bajardiha (2 units), Chakargatta (2 units), Parsahwa (2).**

- What are the Future plans and when?

**VARUN : We plan to replicate the same throughout the Naugarh block. In whole process it may take a quite longer period of time. The exact period can be helter skelter right now to predict because it will be depending upon fund, training and willingness of the community people. But we are excited if we properly communicate them the results of pilot project, they must imitate and involved in the process of income generation through beekeeping.**

2) Middle School: "The Govt. of the state (Province) is planning to make middle school accessible by all up to 2007. ... Vaguely, because Govt. is planning to run the middle school, upon failure of them we can do the same."

=> Yes, I agree totally.

But in Shahpur, we have only one teacher @ 65 students, that also for different classes. At new school in maintaining the strength (no. of students) may take some time."
